

Recycle Right Program Pilot

Shawnee Preliminary Research

Program Goal

To reduce recycling contamination and increase the quality of recycled materials so more new products can be made from them.

Boundaries

Southwestern Parkway, W Muhammad Ali Blvd, S 41 Street, River Park Drive

Number of households

239 (97 participating households the day of pre-audit)

Date

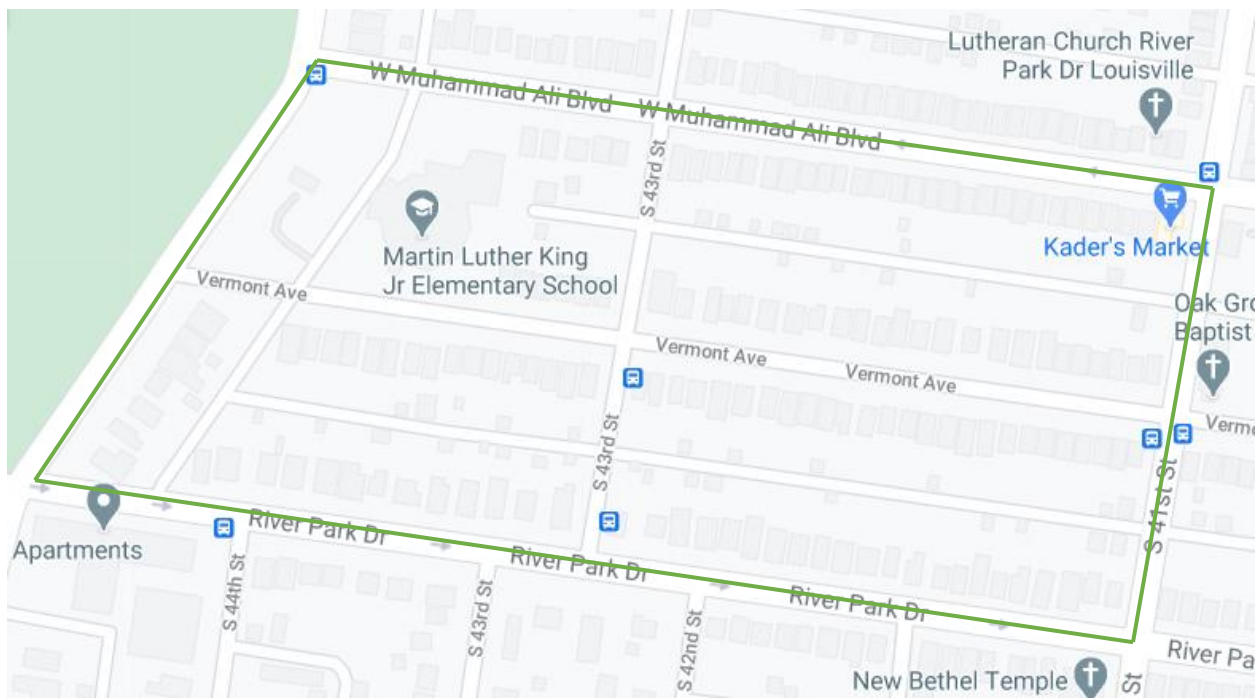

August 18, 2020

Violation Types

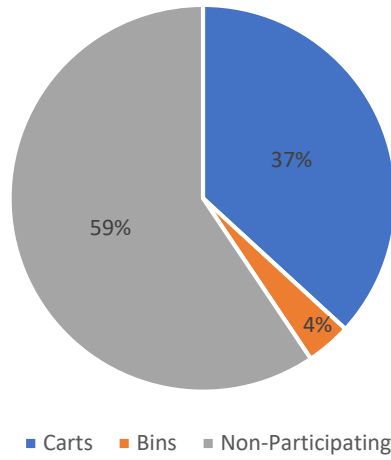

Bagged items, big items, plastic shopping bags, food & liquid, tangles, Styrofoam, carpet/textiles. We also took note of empty recycling carts as well as carts full of garbage.

Carts and Bins

This area received 95-gallon recycling carts back in 2012 for a cart pilot program, so the majority of the participants use a cart.

Recycling Participation in Pre-Audit
